

Project Assessment Form

School of Computing and Communications

This PDF Form can be filled and saved when opened using Acrobat Reader (DC or above) on Windows/Mac/Android/iOS.
Acrobat Reader is available through Application Jukebox and on most University machines.

For: ☐ Week 5 ☐ Week10 ☐ Week 15

Student ID	38038501	Student Name	Aleksandar Chalakov
Project Title	Temporal Scene Comparison and Similarity Detection		

Student's Self-Assessment (Summary of progress)

I have fully completed the proposal and have provided extensive detail into the subjects background, have my aims and objectives outlined, as well as, have provided concise info about the different methods that are going to be used throughout the project. I think Ive done great so far, as everything has been submitted and done on time, as well as, there has been constant progress into further tasks and stuff that has to be tackled

Summary of problems encountered:

I struggled with finding concise enough sources that could help my project, I really had to dig deep and read thorough for information that could support most of my claims. Apart from that, going through the different data sets and examining what could be used and can be discarded was challenging enough.

I have met with my supervisor:

- ☒ Weekly
☐ Fortnightly
☐ Other (please state) _____

Supervisor's Assessment

The students' progress to date:

- ☒ Is satisfactory ☒ Completed Project Proposal before WK5
☐ Gives some cause for concern
☐ Requires a verbal warning
☐ Requires a formal warning

Comments:

Alex has worked hard during the summer to develop a well thought out project proposal and made excellent progress. If he continues to work hard, he will be in line to achieve a good grade in his project.

Approval (to be signed by student and supervisor)

Student: Aleksandar Chalakov

Date: 08.11.2022

Supervisor: Bryan Williams

Date: 10/11/22

For office use only

Verbal warning given:

Date:

Formal warning given:

Date:
